Bhaktapur, Nepal | paudelb11@email.com | 9849632274 | [bibekpaudel.vercel.app](https://bibekpaudel.vercel.app)

Aspiring Software Engineer | Web Dev Enthusiast

---

## Career Objective

Web developer with practical experience in PHP, MySQL, and WordPress. Focused on writing clean, efficient code and eager to grow by learning from real-world challenges and experienced teams. Looking to contribute to meaningful projects while continuously improving my development skills.

---

## Projects

### Readers Network – Social Networking Site

Technologies: PHP, MySQL, Tailwind CSS

- Implemented friend requests, friend list, and notifications for book-focused social platform
  - Enabled users to post reviews, rate books, and interact through likes, comments, and opinions
  - Developed functionality for users to manage reading statuses (Want to Read, Currently Reading, Read)
  - Integrated reporting, comment voting, and admin controls for community management and safety
- GitHub: <https://github.com/paudelb36/readers-network-social>
- 

### Hostel Finders – Hostel Booking Platform

Technologies: PHP, MySQL, HTML, CSS

- Implemented user registration, login and online hostel booking
  - Developed an admin dashboard for managing hostels, rooms, images and user bookings
  - Designed a relational MySQL database with foreign key constraints and cascading deletes for data integrity
- GitHub: <https://github.com/paudelb36/hostel-finders-website>
-

## **Nursery Management System**

Technologies: PHP, MySQL, HTML, CSS

- Created a management tool for plant nursery operations
- Tracked products, managed orders, and maintained customer records
- Focused on backend development using core PHP and relational databases

GitHub: <https://github.com/paudelb36/nursarywebsite>

---
